

Product Identification

Product Name Soil Compounder SBSE Gen2

Manufacturer Regen-Agri Source 15252 Hwy 135 Stover MO 65078 573-789-6363

Emergency Contact Call 911

Intended Uses

SBSE Gen1 is intended to be used for soil stabilization and hardening and for the manufacturing of soil clay compressed products, and to abate dust in applications such as, but not limited to, road construction and pond lining.

Section 2 – Hazards Identification

Classification of Substance/Mixture

This product is not classified according the Globally Harmonized System (GHS).

Hazard Statements and Symbols None needed. **NFPA Rating** Health = 0.5 Fire = 0 Reactivity = 0

U.S. Hazardous Materials Identification System (HMIS) Rating

Health	0	Low significant risk
Flammability	0	Material is nonflammable and will not burn
Physical Hazard	0	Material is stable, non-reactive and non-explosive
Personal Protection	-	No special hazard when used normally

Do not eat drink, leave on skin or get in eyes or body parts.

Hazards Not Otherwise Classified

None

Section 3 – Composition/Information on Ingredients

Chemical Characterization

Enzymatic mixture. Not derived from animal organisms.

Section 4 – First Aid Measures

Inhalation

Not expected to cause respiratory irritation. If adverse symptoms develop move victim away from source of exposure and into a well-ventilated area or an area with fresh air. If symptoms persist, seek medical attention.

Skin Contact

Not expected to cause skin irritation. In event of skin contact, remove contaminated clothing and wash affected area with water and mild soap. If irritation develops or persists, seek medical attention.

Eye Contact

If irritation or redness occurs from exposure, flush eyes with clean water for several minutes. Remove contact lenses, if present and easily removable. If irritation continues to develop, seek medical attention.

Ingestion

If swallowed, nausea or upset stomach may occur. Drink plenty of water to dilute. Seek Medical attention.

Flammability

Nonflammable and noncombustible

This material is a water-based mixture that will not burn.

Flash Point

Nonflammable

Section 5 – Fire-Fighting Measures (Continued)

Extinguishing Media

Use dry chemical, CO₂, or water spray.

Special Protective Actions for Fire-Fighters

Wear full protective clothing including positive pressure breathing apparatus.

Section 6 – Accidental Release Measures

Method for Clean Up

Avoid spills and clean up immediately. Prevent product from spreading by using sand, earth, clay, or containment material to absorb spilled material. Slippery when spilled. Dispose of material properly. See Section 13 for disposal considerations.

Protective Measures

Avoid contact with skin and eyes. Use appropriate personal protective equipment. Use appropriate measures to prevent the spill from spreading or entering drains, sewer system, rivers or open bodies of water.

Section 7 – Handling and Storage

Safe Handling

Always wear personal protective equipment. When working with drums or totes wear safety footwear. Avoid prolonged or repeated contact with skin.

Storage

Store material in tightly closed container in a dry well-ventilated place. Maintain proper storage temperatures of 40°F - 120°F, optimum storage temperature is 75°F. Store containers upright to avoid any leakage.

Section 8 – Exposure Controls / Personal Protection

Occupational Exposure Limits

Contains no substances or ingredients with known occupation exposure limit values.

Appropriate Engineering Controls

Good ventilation should be used. Appropriate eyewash stations should be provided.

Individual Protection Measures / Personal Protective Equipment

General hygiene consideration should be taken including washing hands after handling and before eating and drinking.

Section 8 – Exposure Controls / Personal Protection (Continued)

Eye Protection	Eye protection is NOT generally required under normal usage. If material is handled in a manner that could be splashed it is recommended that splash-proof safety glasses or a full-face shield is used.
Respiratory Protection	When used in well ventilated areas respiratory protection is NOT required.
Skin Protection	Use protective gloves and clothing when used for prolonged periods or when user is dermally sensitive. For prolonged or repeated exposures, use chemical resistant boots, gloves, and apron of body parts subjected to exposure.

Section 9 – Physical and Chemical Properties

Appearance:	Amber Brown Red	Boiling Point:	N/A
Physical Form:	Thick liquid	Vapor Pressure:	N/A
Odor:	Mild and sweet	Vapor Density:	N/A
Odor Threshold:	Not determined	Relative Density:	N/A
pH:	4 - 5.5	Solubility:	Infinitely Soluble
Freezing Point:	Less then 0° C (32° F)	Viscosity:	N/A

Section 10 – Stability and Reactivity

Reactivity

None

Chemical Stability

Stable under normal conditions. Stable at 70° F .

Conditions to Avoid

Extreme heat or cold

Incompatible Materials

Do not mix with anything other than water.

Hazardous Decomposition

Hazardous decomposition products are not expected to form throughout normal usage.

Section 11 – Toxicological Information

Likely Routes of Exposure

Inhalation	Not expected to cause any irritation
Skin Contact	Mild skin irritation with prolonged contact
Eye Contact	Causes mild eye irritation
Ingestion	May cause upset stomach

Acute Toxicity

Oral LD ₅₀	>5 g/kg
Dermal LD ₅₀	No data available.
Inhalation LD ₅₀	No data available.

Carcinogenicity

Contains no component that is known to be carcinogenic

Section 12 – Ecological Information

Ecotoxicity

Ingredients used do not trigger toxicity classifications under the Globally Harmonized System of Classification and Labeling of Chemicals.

Aquatic

No data available

Terrestrial

No data available

Persistence and Degradability

Readily biodegradable

Bioaccumulative Potential

No data available

Mobility In Soil

Highly mobile in soil

Section 13 – Disposal Considerations

Material Disposal

Recover or recycle if possible. Do NOT dispose into drains, bodies of water, or environment. Solidify product and dispose in approved landfill. Check with local, regional, and/or national regulations for appropriate methods of disposal.

Section 13 – Disposal Considerations (Continued)

Container Disposal

Containers may be offered for recycling.

Section 14 – Transport Information

U.N. Number

Not applicable

U.N. Proper Shipping Name

Enzyme Preparations

Transport Hazard Classes

Not applicable

Environmental Hazards

None

Transport in Bulk (according to Annex II of MARPOL 73/78 and IBC Code)

Unknown

Special precautions for users to be aware of/comply with, in connection with transport or conveyance either within or outside their premises:

None known

U.S. DOT / Canadian TDG

Not regulated for shipping

IMO/ IDMG

Not classified as Hazardous

ICAO/ IATA

Not classified as Hazardous

ADR/ RID

Not classified as Hazardous

Section 15 – Regulatory Information

TSCA Inventory

Yes, all ingredients listed

OSHA Hazard

Not regulated

Section 16 – Other Information

SDS Version

1
